ANY SIZE PROJECT
HOWEVER COMPLEX

WE WILL DO THE JOB.

We are a specialist welding company committed to delivering quality works efficiently and cost effectively, with safety as our top priority.

With just under a decade of industry experience and expertise in best practice welding techniques operating all across Australia, we have you covered.

We are proud to have created a culture where safety is the foundation of our company. Through intensive training, monitoring and solid leadership, we have built a culture which fosters a safe work environment and where the health and well-being of our workforce is of utmost importance.

We identify risks first before commencing any work, ensuring all personnel are aware and have the opportunity to participate in implementing safety controls, while we supervise and evaluate continually.

We maintain uncompromising adherence to meeting the Australian Standards as a minimum, along with precisely following the codes of practice, such as the Work Health and Safety Act 2012, the Rail Safety Act for each relevant state (2012 or newer) and the Work Health and Safety Regulations 2012.

SETTING THE STANDARD FOR THE RAIL INDUSTRY.

All Rail Hire has a strict and thorough recruitment process to ensure we employ the best personnel to deliver works in line with our high standards of quality that our clients should expect.

PROFESSIONAL AND HIGH GRADE SERVICES.

Services that we provide include, but are not limited to:

- Heavy rail welding
- Crane rail welding
- Light rail welding
- Track certification (52/53)
- Track inspections
- Track construction
- Rail adjusting (PW3)
- Turnout and crossover construction
- Supervision

Although All Rail Hire is a new concept within the industry, the two directors bring over 12-years of knowledge and vast experience in rail transportation.

YOU'RE IN SAFE HANDS.

CONSTRUCTION MAINTENANCE WELDING LABOUR HIRE PLANT & EQUIPMENT

FULLY EQUIPPED

All Rail Hire provides the highest quality tools and personnel to complete any job presented including:

- Complete welding units.
- Qualified track certifier.
- Tensors.
- Impact wrenches.
- Applicators and extractors for all fasteners.
- Multi-gauge trolleys.
- Qualified first-aiders.

SUSTAINABLE WORK PRACTICES

We place great importance on performing all works to strict environmental practices. We do this by ensuring that our method statements control every risk associated with the environment through effective practices in sustainability and caring for our surroundings.

As far as possible, we aim to eliminate any risk of environmental harm by adopting safe planning before we undertake any work.

Before the establishment of All Rail Hire, the two directors delivered many complex and multi-faceted projects such as:

LEVEL CROSSING PROJECTS [SUPERVISOR] Caulfield to Dandenong (CD9) and Frankston (SPA)

We supervised up to 40 construction workers and multiple weld crews. Works consisted of complete turnout and crossover constructions, viaduct track builds with plinth installation from crane crews and laser levelling, ballasted track construction complete with tamping, regulating and rail adjusting.

MURRAY BASIN RAIL PROJECT [HEAD WELDER]

Responsible for ordering and maintaining all consumables for 10 weld crews, scoping future work including re-railing, re-gauging and defect removal.

- SYDNEY LIGHT RAIL [SUPERVISOR]
- GOLD COAST LIGHT RAIL [WELDER]
- WICKHAM STABLING YARD [HEAD WELDER]
- HEXHAM RELIEF ROADS [WELDER]
- MORETON BAY RAIL LINK [WELDER]
